

# John Doe

123-456-7890 | [john.doe@example.com](mailto:john.doe@example.com) | <https://www.linkedin.com/in/> | <https://github.com/>

## OBJECTIVE

Experienced software engineer passionate about building robust web applications and solving complex technical challenges.

## EDUCATION

### University of Example

*Master of Science in Computer Science*

Example City, CA

*September 2015 – May 2018*

- Focused on distributed systems and cloud computing
- Thesis on optimization algorithms for large-scale data processing

### Example State College

*Bachelor of Science in Computer Engineering*

Example Town, CA

*September 2015 – May 2018*

- Graduated with highest honors
- Coursework in computer architecture, embedded systems, and digital signal processing

## EXPERIENCE

### ABC Tech Solutions

*Senior Software Engineer*

New York, NY

*September 2015 – May 2018*

- Led development of a microservices architecture using Docker and Kubernetes
- Managed a team of 5 developers, ensuring adherence to coding standards and project timelines

### XYZ Innovations

*Software Developer*

San Francisco, CA

*September 2015 – May 2018*

- Designed and implemented RESTful APIs for a scalable backend infrastructure
- Integrated third-party APIs for payment processing and user authentication

## TECHNICAL SKILLS

**Frontend Development:** React, Angular, Vue.js, JavaScript, HTML, CSS, Sass

**Backend Development:** Node.js, Python, Ruby on Rails, Express, MongoDB, PostgreSQL

**DevOps:** Docker, Kubernetes, AWS, Azure, Jenkins

**Database Systems:** MySQL, PostgreSQL, MongoDB, Redis
